DETAILED ACTION

This FINAL office action is in response to the paper filed on 11/27/2007.

Status of Claims

Claims 1, 3, 4, 17, 18, 56, 57, 60, and 62 are pending and under consideration. Claims 2, 5, 19-55, 58, 59, 61, and 63 are cancelled.

Objections and Rejections Withdrawn

All Objections and Rejections that are not present in the instant office action are withdrawn in view of the amendments to the claims or cancellation of previously rejected claims.

Objection to Claims

Claims 1, 3, 4, 17, 18, 56, 57, 60, and 62 are objected to because the dash "-" before the "m" or "n" values should be deleted since the structure does not have a structural sense.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 56 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 56 is improper because it does not refer to a proceeding claim and does not refer to other claims in the alternative. See MPEP 608.01(n) Dependent Claims [R-5]. One or more claims may be presented in dependent form, referring back to and further limiting another claim or claims in the same application. Any dependent claim which refers to more than one other claim ("multiple dependent claim") shall refer to such other claims in the alternative only.

Art of Record

Petka et al. (U.S. 6,090,911) teach SEQ ID NO:24 that encompasses SEQ ID NO:1 and SEQ ID NO:7 and SEQ ID NO:8. However, Petka et al. do not teach polyanionic domain that contains 10 to 30 anionic amino acid residues. Therefore, the instant invention is not anticipated by Petka et al.

Conclusion

Claims 1, 3, 4, 17, 18, 57, 60, and 62 are allowable since the search of the structure did not present 100% match before the Applicants' priority date.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
